Conclusion

DETAILED ACTION

Allowable Subject Matter

1. Claims 1-8, 10-13, 16-19, and 22-24 are allowed over the prior art of record. The following is an examiner's statement of reasons for allowance:

While it is known in the art to have silicon oxynitride layers next to each other, the prior art of record does not teach or suggest silicon oxynitride layers next to each other in combination with the specific range of overall compressive/tensile stress having the specific order of layers on a substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
